

TRAMONTI DI SOPRA: PARULANA WILDLIFE AREA

PROGRAMME

Parulana wildlife area can be defined as a cluster of habitats where everyone can have fun observing animals. The visit offers an incentive to look for animals immersed in semi-natural environments.

- Meet with the nature guide in Claut piazza (PN).
- The route includes a visit to various sections home to foxes, deer, owls and a magnificent lynx, accompanied by an expert guide. After the trip, visitors can create a profile of the animals living in the wildlife area. Foxes, lynx, owls and deer will no longer be a mystery to your children thanks to the use of this simple tool, which will create a profile of their main habits and characteristics. After visiting the wildlife area, children will take part in this sensory experience. In fact, they can experiment with all five senses: taste, sight, touch, smell and sound.
- Packed lunch in the surrounding area.
(if the weather is bad, packed lunches will be enjoyed at the visitor centre).
- Return to the village of Forni di Sopra and a guided tour of the visitor centre and the "Park Vegetation" exhibition: an exhibition that guides visitors through the different aspects of Friulian Dolomites vegetation. It begins with general information about vegetation in mountain environments and ends by touching on the complex and important historical relationships between humankind and plants. Some interesting natural aspects are also explored, such as adapting in relation to considerable environmental difficulties, endemic species and the different ways plants organise themselves into stable communities. The facility also hosts a botanical educational laboratory, as well as temporary exhibitions about herbs and mushrooms.
- End of guided tour.

LENGTH OF TIME

- Full day, adaptable half-day
If it's raining, activities will take place indoors, and alternative activities will be arranged at the visitor centre.
The programme can be modified according to group needs.

MATERIALS REQUIRED FOR THE EXCURSION

- Hiking boots or sturdy trainers and appropriate clothing for a mountain hike.
- Waterproof jacket
