

19 SPORTS AND LEISURE ACTIVITIES IN THE ENVIRONMENT

PHOTOTREKKING

LEARN HOW TO PHOTOGRAPH NATURE

PROGRAMME

The natural world can be breathtakingly beautiful. A camera is certainly an essential accessory when travelling through this mountainous paradise. Not only so that visitors can take home memories, but also so that they can study flowers, footprints or any other elements that have captured their curiosity. If you're looking to take excellent photographs, why not allow an expert to give you some top tips on how to photograph natural wonders along the way.

- Meet with the nature guide in Claut piazza (PN).
- Depending on the chosen trail, various photographic techniques can be explored such as macro and flora, landscape, nature in motion, constructing an image, photography at night, photographing the stars, photographing water, "observing" with a photographic eye. Visitors will also be able to learn about the different elements of a camera (diaphragm, ISO, lens, etc ...) and evaluate the importance of light.
- Packed lunch in the surrounding area.

LENGTH OF TIME

- Full day, adaptable half day
*Activities will be suspended if it is raining.
The programme can be modified according to group needs.*

MATERIALS REQUIRED FOR THE ACTIVITY

- CAMERA
- Hiking boots or sturdy trainers and appropriate clothing for a mountain hike.
- Waterproof jacket
